TOSHIBA

HIGH-END US SEMINAR RADIOLOGISTS FOR RADIOLOGISTS

JOIN US

You are kindly invited to join a three-day sonography course for radiologists, with seminars and practical training with models. This course is the perfect opportunity to enhance and update your knowledge and skills in sonography with radiology experts to share their best practices.

Aim of the course:

- Learning the standard examination with the reference US images of the joints of the lower limb.
- Practicing in intensive hand-on training sessions how to make the reference images and how to perform the dynamic imaging.
- Standard reporting of pathology of the lower limb.

THU 14 SEPTEMBER - FRI 15 SEPTEMBER - SAT 16 SEPTEMBER 2017
